"Above & Beyond"

Visit "[Above & Beyond](#)" on MotoLyrics.com

Yo Fredro, let's do it again
For the people
Above & beyond
Yea

The smartest thing I ever did was love you
After all the things I've been through babe
Unfortunate yes, cause girl you're the best
When you're alone listen to this
The speaker's gonna play it
Until you take my arm so I can say it

Want you to turn it up and play it loud
You're listening to my heart right now
Want you to turn it up and play it loud
You're listening to my heart girl
You're listening to my heart girl (right now)

Girl, for you, I'd go above and beyond
My love for you, it goes above and beyond yea
I'd go to the moon for you, you don't have to worry
I'll bring you stardust from above and beyond yea

I love you, I love you, I love you
I love you, I love you, I love you

I can be your Superman if need be
Without an S, instead your name 'cross my heart
I'll do anything you ask
I'm never too far
If there's no phone service to take
The speakers gon play it
Until you're in my arms

Want you to turn it up and play it loud
You're listening to my heart right now
Want you to turn it up and play it loud
You're listening to my heart girl
You're listening to my heart girl (right now)

Girl, for you, I'd go above and beyond

My love for you, it goes above and beyond yea
Iâ€™d go to the moon for you, you donâ€™t have to worry
Iâ€™ll bring you stardust from above and beyond yea

I love you, I love you, I love you
I love you, I love you, I love you

I waited for a start, before this room you came to me
Wrapped around like satin girl
My arms on you will be
Forever Iâ€™ll tell ya
Iâ€™m taking you to another level
Above, above, above for you

Above and beyond yea
Above and beyond yea
Above and beyond yea

Girl, for you, Iâ€™d go above and beyond
My love for you, it goes above and beyond yea
Iâ€™d go to the moon for you, you donâ€™t have to worry
Iâ€™ll bring you stardust from above and beyond yea

I love you, I love you, I love you
I love you, I love you, I love you
I love you, I love you, I love you (said I love you, I love
you)
I love you, I love you, I love you

Above and beyond, above and beyond yea
Above and beyond uh
Above and beyond yea
Yea, above and beyond
You know I love you above and beyond
