"Navy Blue"

Visit "[Navy Blue](#)" on MotoLyrics.com

(Intro)
Navy blue

(Verse)
See for a while now I knew all I want is you yea
'Cause when you shine my sky's not black, it's navy
blue

(Bridge)
We hit a rough patch, I'm glad that we made it through
What would I do without you, I don't wanna have a clue
I know everything sweat comes from the vine yea
And the dark won't last when the stars combine
It's true,

(Chorus)
Navy blue blue blue blue blue blue blue
Navy blue blue blue blue blue blue blue
Navy blue blue blue blue blue blue blue
Navy blue, navy blue

(Verse)
Girl you got me overlookin our peaks and valleys
Sweet darling, I've been thinkin bout us
You're standin there but you're a part of my body
My heart beats yea because of you girl
No mistakin wide awake and it's happenin
Knew right from the door, pure happiness
I imagined this, the way it feels when it's real which is
what this is

(Verse)
You changed my life, how you do that girl?
Take my life, how you do that girl?
From a void of man, glad we're in sync again
No more frightened temptations we make miracles
together
So for a while now I knew all I want was you
All I want, all I want
Girl 'cause you shine, my sky's not black, it's navy blue

(Bridge)

We hit a rough patch, I'm glad that we made it through
What would I do without you, I don't wanna have a clue
I know everything sweat comes from the vine, yes it
does
And the dark won't last when the stars combine
It's true,

(Chorus)

Navy blue blue blue blue blue blue blue
Navy blue blue blue blue blue blue blue
Navy blue blue blue blue blue blue blue
Navy blue, navy blue

(Verse)

Here on blessin
And girl your beauty was an interlude
I promise when I found a kid who had it soft for you
The range is so beautiful
So beautiful
Girl hop in the strings and make it suitable

(Verse)

And no, you couldn't hear it until it's finally finished
Put my heart in every word and my soul in every lyric
Perfect for you
I waited til we said I do

You changed my life, how you do that girl?
How you do that, tell me how you do that do that
From a void of man, glad we're in sync again
No more frightened temptations we make miracles
together

So for a while now I knew all I want was you
Because you shine, my sky's not black, it's navy blue
We hit a rough patch, I'm glad that we made it through
What would I do without you, I don't wanna have a clue
I know everything sweat comes from the vine,
And no, the dark can't last once the stars combine
It's true, navy blue
