(Intro)

Pictures of us
You and me
Me and you

(Verse)

These pictures make me reminisce
Refreshin all our memories
I'm lookin girl how far we've come
Since day one we've been killin em
When I met you girl we both were still in school
Undergrad, a temple you
You was studyin to be a doctor
At times I struggled with financial aid
I miss you every day I ain't
Oh yes I have to wife you

(Bridge)

Lookin at these pictures 'cause you're famous to me
And we don't need no need no need no paparazzi
I'm talkin Instagramin, Polaroid
Damn in every picture baby girl you look good

(Chorus)

The first time that I kissed you baby
The first time I said I love you
And when the dollars and the haters can stop us
Means all the feelings of ours girl they're long through
When I look at these pictures, pictures, pictures of us
Your favorite pictures, pictures, pictures of us
All these pictures, pictures, pictures of us
And girl our love is still strong

(Interlude)

â€¦ together
Flash flash flash flash flash ah

(Verse)

Down Ocean City we was on a beat (flash)
Back then, your friends they tried to hate on me (flash)
Think always they had a man like me

Now they can break what we're havin
In every year we just add to the passion
Right here's a photo of you graduated and I was so
proud of you girl
I wanna give you the world tearing up at these pictures

(Bridge)

Lookin at these pictures 'cause you're famous to me
And we don't need no need no need no paparazzi
I'm talkin Instagramin, Polaroid
Damn in every picture baby girl you look good

(Chorus)

The first time that I kissed you baby
The first time I said I love you
And when the dollars and the haters can stop us
Means all the feelings of ours girl they're long through
When I look at these pictures, pictures, pictures of us
Your favorite pictures, pictures, pictures of us
All these pictures, pictures, pictures of us
And girl our love is still strong

(Interlude)

Now that's it, right there
That's it, you look beautiful
You stand right there
A'ight
Put your shades on, I like that
Listen
On 3 I want you to say cheese, alright?
1, 2, 3, cheese
Aa, beautiful
Excuse me, would you mind taking a picture of us?

(Chorus)

The first time that I kissed you baby
The first time I said I love you
And when the dollars and the haters can stop us
Means all the feelings of ours girl they're long through
When I look at these pictures, pictures, pictures of us
Your favorite pictures, pictures, pictures of us
All these pictures, pictures, pictures of us
And girl our love is still strong
