Featuring War

All my friends know the low rider

The low rider is a little higher

The low rider drives a little slower

Low rider, is a real goer

Hey

Low rider knows every street, yeah

Low rider, is the one to meet, yeah

Low rider don't use no gas now

The low rider don't drive too fast

Take a little trip, take a little trip

Take a little trip and see

Take a little trip, take a little trip

Take a little trip with me
