I don't wanna see this again
I'm sick and tired of everything
I wonder if this is the end
I just wanna run away
Repeating over and over
Forcing me to remember
(I'm searching for a way out)
I just wanna run away

I see no escape
Still crushed by this weight
Throw it all off
Just disappear

Set me free
Because of you, my life's in two
I fight so hard just to make it through
So goodbye
I've realized, I can't survive
I'd rather leave and be out of sight
Don't try to find me
Just save your breath and believe me
It's so much better anywhere, than here

How many miles have I gone
The distance severing our ties
The night swallowing my hurt
I'll just keep running
With the same things passing me by
What I see weakens my resolve
(Can't go back now)
I'll just keep running

I see no escape
Still crushed by this weight
Throw it all off
Just disappear

Set me free
Because of you, my life's in two
I fight so hard just to make it through
So goodbye

I've realized, I can't survive
I'd rather leave and be out of sight
Don't try to find me
Just save your breath and believe me
It's so much better anywhere, than here

You strangled me, let me drown
You've turned my world upside down
I didn't want this to happen
It's been quiet since I left
You strangled me, let me drown
You've turned my world upside down

Set me free
Because of you, my life's in two
I fight so hard just to make it through
So goodbye
I've realized, I can't survive
I'd rather leave and be out of sight
Don't try to find me
Just save your breath and believe me
It's so much better anywhere, than here

Set me free
Because of you, my life's in two
I fight so hard just to make it through
So goodbye
I've realized, I can't survive
I'd rather leave and be out of sight
Don't try to find me
Just save your breath and believe me
It's so much better anywhere, than here

Set me free tonight
Let me make this right
Won't you believe me?
Won't you believe me?

Set me free tonight
I've lost my will to fight
Won't you believe me?
Won't you believe me?

Set me free tonight
