"He Will Be There"

I was walking through my life without a meaning
Surrounded by lies in a material paradise
I didn't care for noone and noone cared for me

Then he came and changed my life
Gave me a chance to paradise
A changing wind called Jesus Christ

He will be there for you
Just like he promised to
He gives us a helpin' hand
To reach the promised land

I was living on the edge of my destruction
I just followed my head
I didn't care about what they said
I put trust in noone
And noone trusted me
(Repeat Bridge & Chorus)
