"My Hearts On Fire"

Visit "[My Hearts On Fire](#)" on MotoLyrics.com

I have worked my life to know Your ways
So far my life has not been what I planned
I've tried to follow You all of my days
I want to understand

My heart's on fire
It's come down to the wire
My heart's on fire
You're my only desire

You are the author, creator of my life
And I will trust You through the darkest night
Sometimes the pain attacks with it's merciless bite
Help me through this fight

Heaven has opened wide is it's gates
Your Spirit now surrounds me
As I move on to meet my fate
You strengthen my faith
