In need of guidance
You've just been pushed around
People told you what to do,
But then they disappeared

Learned it by the hard way
A child burnt by fire
Feeling out of nowhere
Only fear and doubt

Slamdancer - You're wild and you're free
Slamdancer - Captured in your rapture

In fear of silence
You need to turn around
Control your situation,
Or watch it disappear

Ease your inner pressure,
Cut the timebomb fuse
See the coming future
Rest your wounded mind
