

Laudamus "Living God"

Many people talk a lot
About a man in history
He was a man of God,
They were calling him Messiah
He was the sacrificial lamb,
The one who saved the human race
The Romans ploged his back
They nailed his hands

Living God
Forever
Living God
He'll never die

Many people saw the things
The amazing things He did

The Pharisees were there
They were calling him a liar
He was here to liberate,
To help the people stand up straight,
But the evil dominion
Wanted him dead

Night after night we'll fight and pray
Waiting to hear what He will say
Get down on your knees
Just turn around today
