

## Laudamus "Salvation"

Visit "[Salvation](#)" on MotoLyrics.com

Destructive power lies in our minds  
They say there's "no heaven", we live than die  
A fallen angel leads the way  
Promising Heaven and delivering hell

But there's a way of life  
It's the way of The Light

Ancient of days fountain of life  
A love beyond measure everlasting life

Highway to grace eternal delight  
We are his treasure if we trust Him with our lives  
Salvation

We got a fire that burns inside our souls  
A gift of life- whith no more death  
Can you hear it's voice callin' you  
The voice of endless love
