Trust your wizards and your horoscope  
Satisfied when you're high on dope  
Find your answers in the demon's sign  
Feels okay living on this lie

Distracting prophets are calling you  
Who will you choose? Listen, I'm telling you

God gave us his son  
You can believe or you can deny

Unlimited love  
You can receive or let it pass by

See your future in the crystal ball  
Healed by stones, do you try it all?  
Does your money bring an extra life?  
Does it give a loving wife?

The love of Christ can reach your soul  
Just let it flow, listen I'm telling you
