### "Breathing"

Visit "[Breathing](#)" on MotoLyrics.com

Cannot let you down, down in your head  
Come back to me baby  
Come back to me baby  
Cannot let you drown in a deep well  
Cause you might get out, but you don't know when

If you're still breathing, it isn't so bad  
My wounds are open, but you can heal them

Won't you come with me up in to space?  
I'm tired of these games where nobody wins  
Won't you come with me for a short ride?  
Our feet will be wings  
And our heart will be springs

If you're still breathing, it isn't so bad  
The wounds are open, but i'll help you heal them  
If you're still breathing, it isn't so bad  
My doors are open, if you want to see me

Come on in!

If you're still breathing, it isn't so bad  
Your wounds are open, but you can heal them  
You are still breathing, you are all that i have  
My wounds are open, so come help me heal them

We are still breathing, it isn't so bad  
Our hearts are open, no need to conceal ourselves
