Ooh yeah

We're living in a world
Heads held down
Pretending that we are blind
And iniquity a fact
If we don't react
It stays in our unconscious mind
We told so many lies
We hear so many cries
Some of us still deny
One diplomatic code
A one way road
Nobody turns around to defy

Why are we told how to live our lives tell me
Everybody deserves to be free

It's all a masquerade
This world we live in
It's all part of the game
To hide all our sins
It's all a big parade
These voices we're hearing
make us feel mired
ooh it's all a masquerade
Yeah yeah yeah yeah yeah

We've been dying in a world
for nothing or for gold
who can give the answers now
who can tell us why some people have to starve
and some people are being crowned
the globe is disarrayed
drives the love away
and leaves us like we're outdone
We need to disabuse
Those who want to choose
And never stop but carry on

Why do we only see things we want to see

Does in need got to be freed

It's all a masquerade
This world we live in
It's all part of the game
To hide all our sins
It's all a big parade
These voices we're hearing
make us feel mired
ooh it's all a masquerade
Yeah yeah yeah yeah yeah

all, all that we see
all that we feel
is the one side we are shown
we are trying
we are fighting
for a cause that's still unknown
all of our dreams
all of our screams
show that we want to be heard
whit our voices
whit our choices
we can all stand up and say no

It's all a masquerade
This world we live in
It's all part of the game
To hide all our sins
It's all a big parade
These voices we're hearing
make us feel mired

It's all a masquerade
This world we live in
It's all part of the game
To hide all our sins
It's all a big parade
These voices we hearing
make us feel mired
ooh it's all a masquerade
Yeah yeah yeah yeah yeah
it's all a masquerade
yeah yeah
