Hear your words out of my mouth again.
Leaves me stuck with the key to
all these reasons you got in my head again.
Buried you inside of me.

Return all of this to sender
That mirror spoke to me and showed
all of this pretending; it's catching up to me!

[Lights Out! Wake Up! Stay Calm! Decide]
[Reach Out! Stand, or be an eyesore!](2 Times)
Staring out and over my words again
Makes me start to believe
Wearing your lies over these words of mine
Always feels like my mistake

Return all of this to sender
That mirror spoke to me and showed
all of this pretending; it's catching up to me!

[Lights Out! Wake Up! Stay Calm! Decide]
[Reach Out! Stand, or be an eyesore](2 Times)

The worry, wonder, people thinking, it really matters.
There's nothing more important than what people think
about you
The worry, the wonder, it's all worth it.

Return all of this to sender
That mirror spoke to me and showed
all of this pretending; it's catching up to me!

[Lights Out! Wake Up! Stay Calm! Decide]
[Reach Out! Stand, or be an eyesore] (2 Times)
