Never in a Million Years  
Oh, if I could touch you,  
It'd be a once in a lifetime dream come true,  
And oh, if I could have you,  
just one night,  
just one time,  
But I know I'll never get the chance,  
I'll never get a second glance,  
Never in a million years,  
Never in a thousand tears,  
If I could ever hold you,  
I'd never let go,  
Never in a million years.  
How I need you,  
If you could only see inside my heart,  
And oh, to be near you,  
close enough, to reach and touch,  
well I've thought it over in my mind,  
If I could walk across the bridge of time,

Never in a million years,  
Never in a thousand tears,  
If I could ever hold you  
I'd never let go,  
Never in a million years.  
But I know, I'll never, never, never get the chance,  
I'll never get a second glance,  
Never, in a million years,  
never in a thousand tears,  
If I could ever hold you,  
I'd never let you go,  
never.  
Never in a million years,  
Never in a thousand tears,  
If I could ever hold you,  
I'd never let go,  
Never in a million years!
