Cause she was his lover
She was his friend
He was her everything
Someone to depend

When she wakes up
In the mornin'
And all his things are gone
Sshe looks into the mirror
Thinkin' what did i do wrong

There he goes
But i gotta keep movin'
There ain't nothing
To lose for?

Everyday
Has it's ups and downs
You think you're lost
You will be found
Most of us
Want the same old things
Someone to love
What it brings
I know it's hard
It gets tough sometimes
You gotta hold on
Like a carousel
Going around
And around
And around
And around

She was so young
But she was in love
He promised her everything
That she could dream of

When she wakes up
In the mornin'
Finds that he ain't there

She looks into the mirror
Thinking how did i get here

There he goes
But i gotta keep movin'
There aint nothin'
To lose for?

Everyday has
It's ups and downs
You think you're lost
You will be found
Most of us
Want the same old things
Someone to love
What it brings
I know it's hard
It gets tough sometimes
You gotta hold on
Like a carousel
Going around
And around
And around
And around

Yeahhhh

Everyday has
It's ups and downs
You think you're lost
You will be found
Most of us
Want the same old things
Someone to love
What it brings
I know it's hard
It gets tough sometimes
You gotta hold on
Like a carousel
Going around
And around (3x)
