If you come to our town take a ride take a ride  
If you come to our town take a ride again with me

If you stop by the place where we lay where we lay  
If you stop by the place where we lay

Please forget how I cried how I cried how I cried  
Please forget how I cried on that day

And all those who would say who would say who would  
say  
Why they thought you should marry me that day

I'll try not to think about  
How I felt ten years a life ago  
How I felt when you left me far behind

If your heart asks you who he or she would have been  
If your heart asks you put it out of your mind

If in those you confide there is doubt there is doubt  
If in those you confide there is doubt  
Explain to them as you did to me did to me  
How necessary leaving then would be

Know I've mourned quiet enough for myself and for  
you and  
For the one we'll never come to know

I'll try not to think  
I'll try I'll try not to cry  
I'll try
