When the sun is warm where you are  
And it's comfortable and safe where you are  
Well, it's not exactly that way  
All over

And somewhere in the world  
Someone is cold,  
Be aware!  
And while you're feeling young  
Someone is old,  
Be aware!

And while your stomach's full  
Somewhere in this world  
Someone is hungry  
When there is so much  
Should anyone be hungry?

When there's laughter all around me

And my family and friends surround me  
If I seem to be forgetful,  
Remind me

That somewhere in the world  
People are weak,  
Be aware!  
And while you speak your mind  
Others can't speak,  
Be aware!

And while your children sleep  
Somewhere in this world  
A child is homeless  
When there is so much  
Should any child be homeless?

Oh, no, not even one child,  
Be aware!
