

## Laura Nyro "Light (Pop's Principle)"

Visit "[Light \(Pop's Principle\)](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You are light  
You're the energy that makes the sun shine bright  
You are light, you're light  
You're the energy, atoms and light, atoms and light

Sage's light  
Oh, and Edison he made two sparks ignite  
All you do, all you do it's a scientific chain reaction  
It'll come back to you, you better do it right  
Oh light

In your flight  
Send your love out to the planet's soul  
'Cause all are one, all are one  
And all the living things they need some light to grow  
Oh light

You are light, you're the energy  
Oh light  
You're the energy  
Turn it on light
