"Serious Playground"

Visit "[Serious Playground](#)" on MotoLyrics.com

I walk the path of heart and soul. I make my living
building homes.
I build them out of music with my imagination.
Sound architectural tools I use. My boss is the Muse.

Serious playground, I'm down for the music of my life.
Serious playground, day or night.
I walk the path of heart and soul. I try to make a living
of my own
Out of music and celebration, sound architecture and
rose and blues. My boss is the Muse.

Serious playground, that's where I work and play.
Serious playground, night or day.
More, more than stress or strain. More, more than just
capital gain.
So send me the music like wings to fly, natural high.

Serious playground, I'm down for the music of my life.
Serious playground, here for the music, here for the
music.
Serious playground, for the music of my life. Serious
playground, for the music of my life.
Serious playground, I'm here for the music of my life.
