Brown shiny nest up in a tree  
Maple and warm like the nest in me  
Wings to fly, twigs for the nest  
Ancient and new, it's a warm address  
And I'd like to know how to give and let live

Eskimo, did somebody call your name out loud?  
Baby on your back, oh you're only a woodblock on the  
wall  
Windy hills in primal glow rolling  
My love lies in the earth unfolding  
And I'd like to know how to give and let live

Music from love to make the nest bright  
Song on a limb like a string of light  
Just a tree, brown shiny nest  
Ancient and new, it's a hot address
