Everything I do I do to be with you  
Everything I do I do to be with you  
I do to be with you, I do to be with you

Take a look around, take a look at me  
And tell me what you see, am I just a friend  
'Cause if I am, I wanna be more it's true

Anything you want, anything you need  
I can give to you, if you let me in yea  
My heart is open wide, for you to come inside  
And make yourself at home

No mountain'd be too high for me to climb  
As long as you were on the other side  
Everything I do I do to be with you  
An' nothing in this world could ever be  
More than you already are to me  
Everything I do I do to be with you

Wanna pull you close, wanna let you know  
What you mean to me, I can show you love  
And what it does, are you down to be  
My only one, 'cause when I'm done  
Baby you will feel, more than you imagined

My heart is open wide  
For you to come inside  
And make yourself at home

No mountain'd be too high for me to climb  
As long as you were on the other side  
Everything I do I do to be with you  
With you

An' nothing in this world could ever be  
More than you already are to me  
Everything I do I do to be with you

I do to be  
I do to be with you  
I do to be

I do to be with you boy  
Everything I do I do to be with you

Everything I do, everything I do boy  
Everything I do do to be with you  
I do to be with you

No mountain'd be too high for me to climb  
As long as you were on the other side  
Everything I do I do to be with you  
With you

An' nothing in this world could ever be  
More than you already are to me  
Everything I do I do to be with you  
I do to be with you boy
