Together as one, with the cracked mirror, reflecting
only this unborn unknown,
I've never felt this emptiness, like a cascade of
teardrops in blade forms...
Decisions, to choose the arcanum one.
I'm slowly fading into the dreams of the universe,
Do I really feel the tragedy? Where are those grey
moments of pleasure,
I'm the dawn, I'm the night, I can create and destroy, I
will always be the lonely walker.
Together as one fortune and misery, I'm a warrior full
of hate and wisdom, full of pride and sadness.
Soon I'll cross the river of fire, soon I'll face the Final
Battle, to revenge all those soulless Lost Years....
