Two lovers kiss on a silver screen,
It seems to natural and I believe,
What they have is what we're supposed to be,
Last night was pure exctasy,
The stage was set boy,
Just you and me,
But before I believe in dreams of destiny,

Was it just,
An illusion of a kiss,
An imaginary rush,
Just the feeling of the reverating touch,
Was it just,
Just a temporary dream,
The performance of a chill,
Just a shiver in the mist,
The Illusion of a kiss,

Tell me I'm not the only one,
It feels our future has just begun,
Hold me steady and look me in the eye,
How do I know if what I feel is right,
Or just a trick of the candlelight,
It's been a question burning since the dawn of time,

Was it just the illusion of a kiss,
An imaginary rush,
Just the feeling of the reverating touch,
Was it just,
Just a temporary dream,
The performance of a chill,
Just a shiver in the mist,
The Illusion of a kiss,

Was it just the illusion of a kiss,
Was it just
