Something happens when you kiss me.
Don't know where you end and I begin;
We're closer than skin.
Time stops and I'm suspended,
Far out on the edge where true love is.
I wanna go there again.

You get into my heart;
Unlock the secrets inside me.
I can't help that I fall each time you touch me,
It's soul deep.
Out there are places only you can reach.
Baby, you know you get to me soul deep.

All night, and all day alone you're,
With me in every single breath I take.
I feel so awake.

You get into my heart;
Unlock the secrets inside me.
I can't help that I fall each time you touch me,
It's soul deep.
Out there are places only you can reach.
Baby, you know you get to me soul deep.

Deep as the rain,
Deep as the sun,
Deep as the sea,
Deep as it runs,
Deeper than deep is what we've begun
With this emotion

You get into my heart;
Unlock the secrets inside me.
I can't help that I fall each time you touch me,
It's soul deep.
Out there are places only you can reach.
Baby, you know you get to me soul deep.
