

Chastisement "Soul Evasion"

Be! Holding myself when I'm hunting them down.
Reading my mind, connection denied.
Forget about those who were slain upon my wrath.

Samples recorded and victims painful angst.

Join me, follow and watch all of the
restless, painful, hateful and dying.

Bypassed short circuits. Half human, controlled by
remote.
Scan the surroundings, search everlasting volunteers.

Connected to a pulse generator.
Half human, half machine, converted to unknown.
Controlled by something so inhuman
Chosen and handpicked as their blood is being spilt.
Connectors attached, sensing my flesh.
No more humans, killing spree.

Bypassed short circuits. Half human, controlled by
remote.
Scan the surroundings, search everlasting volunteers.
You made me believe. What you have done to me
erased my soul.

Be! Holding myself when I'm hunting them down.
Reading my mind, connection denied.
Forget about those who were slain upon my wrath.

Samples recorded and victims painful angst.

Join me, follow and watch all of the
restless, painful, hateful and dying.

Bypassed short circuits. Half human, controlled by
remote.
Scan the surroundings, search everlasting volunteers.
