It's late july the summer's warm
You and me and the stars so bright, one thing I'll
remember about that night
I'll remember the t-shirt you wore, your hair a mess,
your crooked smile and
Your beautiful eyes tellin me that this loves gonna last
awhile

Chorus:

I know I'm gonna have to leave soon
I know I'm gonna miss you, I'll be thinkin of this night to
get me through
One thing I'll never forget and one thing I promise to
do, I'll come back to
You

I remember drivin to your grandpa's farm
Hand in hand the radio up one of those adventures I
loved
The night went on and I went home a kiss goodnight
with one more wish of
One more second with you

Chorus:

I know I'm gonna have to leave soon
I know I'm gonna miss you, I'll be thinkin of this night to
get me through
One thing I'll never forget and one thing I promise to
do, I'll come back to
You

I'll come back to the memories
The times we had the july laughs and baby I'll say

There's no leaving you
No reason to miss you
I have the rest of my life with you
One thing I'll never forget, one thing I promise to do
I'll never leave you
