It's a regular Friday in the chevy with that boy when ya shouldn't be

Talkin till ten, kissin till two ya that's the way we do

Fallin in love beneath the stars.

Finally realizing what we are

That were in love forever.

Chorus:

Cuz he's got that deep brown hair and those promisen eyes

The soul of an angel and a smile that will kill ya

He's got that thoughtful mind and a heart filled with love

And your in real deep and now your stuck

Ya gave your heart away

Ya gave him all you got

But his love aint goin nowhere

Ya take the chevy out back and pull down the bed

Remember all them nights when you were alone

He takes that feelin away when he grabs your hand

Pulls you in close and ask you to dance

You so in love you can't say no

And you see you have no regrets with that boy oh! oh!

Chorus:

Cuz he's got that deep brown hair and those promisen eyes

The soul of an angel and a smile that will kill ya

He's got that thoughtful mind and a heart filled with love

And your in real deep and now your stuck

Ya gave your heart away

Ya gave him all you got

But his love aint goin nowhere

Your cell phone rings at ten A.M. he's already at your door

He grabs your keys and pulls your hand as if he runnin away with you

He takes you to the chevy

Ya barely even ready

Don't even know where ya headed
He drives to that little lake with that big oak tree
And pulls you underneath it's shade
He grabs your hand and gets on one knee and says will
you marry me
You cry happy tears lookin forward to the years
And all you know how to say is yes

Chorus:

Cuz he's got that deep brown hair and those promisen
eyes
The soul of an angel and a smile that will kill ya
He's got that thoughtful mind and a heart filled with
love
And your in real deep and now your stuck
Ya gave your heart away
Ya gave him all you got
But his love aint goin nowhere

It's nine P.M. and ya sneak outside from hearin that
noise at your window
Ya see him layin upon that chevy just like when your
love first began
And you take his hand and kiss him slow and tell him
your love aint goin nowhere

Chorus:

Cuz he's got that deep brown hair and those promisen
eyes
The soul of an angel and a smile that will kill ya
He's got that thoughtful mind and a heart filled with
love
And your in real deep and now your stuck
Ya gave your heart away
Ya gave him all you got
But his love aint goin nowhere

It's a regular Friday in the chevy with that boy when ya
shouldn't be
Talkin till ten, kissin till two ya that's the way we do
Fallin in love beneathe the stars.
Finally realizing what we are
That were in love forever.
