i just want you around[x4] thought i had lost you i could
hardly make a sound when i thought i couldnt hold you
knew the world had let me down shoulda took the time
and told you you keep my feet on the ground i hope
you hear me cause i know its not profound

i just want you around i just need you around[x2]

when i thought i was without you i got used to being
down was my fault i used to doubt you but that aint me
next time around please believe me when i tell you
cause all my words are bound this is my cross now let
me bear it was lost but now im [found][x3]

i just want you around i just need you around[2]

took this love for granted kept my feelings
underground should have watered where i planted
should have known what i had found im not used to
being lonely i dont like the way it sounds youre the only
one i know yeah who dont turn my upside down

i just want you around i just need you around[x6] just
want my man around
i just want you around i just need you around.....fade
out
