Here in the dark, dizzy from the stars that light your
face'br> The winter makes you shake, let me be the
warm place'br> 'cause I burn with the fire of a lifetime
waiting for you

If nobody sees you, do you exist?
Don't ever fall in love with a solipsist.
If you're falling to pieces, can she make you whole?
If nobody sees you break will you fix it on your own?

You burn through the film in shades of the sunrise,
I am the moon, ablaze in the first light

I've been watching their faces, I've seen through their
eyes
Wandered through places where the desperate tell
their lies
They pass like an ocean, over my skin
I've been holding my breath for years so they won't get
in
