Took a walk, around the block,
drank a coke, had a smoke...

Why won't these images end?

You and me, couldn't we

ease into the century,

There ain't no use to pretend...

I Close my eyes, and see your face

it's spinnin' 'round my brain

Was a better place, full of space

yesterday, anyway...

I think you might feel the same.

When will I see you ?

I just can't seem to think of nothin' else.

When will I see you ?

I'm Usually Obsessed just with myself.

Took a drive, I felt alive

made it home, was alone

I have your photograph here.

In your eyes, I could die,

don't know why, everything

all seems so perfectly clear...

Every time I see your face
It happens all again
Wanna celebrate, make a date
bake a cake, dedicate,
but I got to wait until then...
When will I see you ?
I just can't seem to think of nothin' else.
When will I see you ?
I'm Usually Obsessed just with myself.
I picture us
in lust
and I'm panicking
every time I see you walk away...
