Laurie Freeloove)
What you takin' on
What you makin' go
When nobody like the way
It shows up on your face?
Tell me up your heart
Make me up your words
If you say "somebody else"
One day I would
Look you in the eye
Dance out on your beat
Depend on nothing ever coming
Closer to reality
You're fragile I know it sweet child
C'mon won't you tell me
How, how to get closer
How, how to get closer?
Did you ever think
This could not be done?
Wait a minute lover
Won't you stay you're the one?
Who takes me in some arms
Rolls me in a heat
Talks me into circles no
I won't be leaving
So, you can touch me now
You can make me feel
Depend on nothing ever coming
Closer to reality
You're fragile I know it sweet child
But c'mon won't you tell me
How, how to get closer
How, how to get closer
