(Laurie Freeloove)
Eyes are guides
Tone eyes call
Tell me anything
say it, anything, well
eyes want to know
What's that in your eyes?
What's that in your face?
What are in the sounds, those
words you never make?
Eyes, touching
Eyes, talking
Talking talking talking over
Looking looking looking under

Breath so low wind my way
You'll walk away from me
But leave me completely - no - well
eyes, like memories on my skin
Do I touch your face?
Do I take your hand
Do I say the things that
we both understand?
Eyes, touching
Eyes, talking
Talking talking talking over
Looking looking looking under
Eyes
