(Laurie Freelove)

If you walk away awhile
listen up and lay real low
you will hear the scheme of things
breaking down and shifting loose
somebody is on the line
If you listen carefully
tune in and make no deals
stop the tick of the second hand
spin it 'round and start again
somebody is on the line

(Chorus)

If you walk away awhile
loosen up and take it slow
you will hear the sounds of things
things you always wanted to know
well, somebody's on the line
And I won't do any harm to
check the line let the message through
and I won't do any harm to

check the cards they've been dealing you
it's high time you knew
you've been holding a card that's wild
now throw it higher
you've been holding a card that's wild
now throw it higher than high
High, high, high
If you walk away awhile
let the moon take a shine to you
pitch your shoes through the ever was
dance in the rain of barefoot and touch
well, somebody's on your line
If you listen carefully
tune in and click your heels
close your eyes let the magic fall
every space every place that you are
well, somebody is on your line
(Chorus)
