\*Lauryn Singing\*

You can't run away...gonna find you  
and take it slowly  
You can't run away...gonna find you  
and make you want me

Chorus

All my time it could be spent with you  
So what you gonna do?  
Make sure your game is true  
See all my time it could be spent with you  
So what you gonna do?  
Make sure your game is true

\*Rapping\*

Well could it be that through these Cartiers I swear  
their stares a specimen smooth as Sidney Poitier  
Clean cut & dapper seems he's straight & narrow  
Tingle in the bone marrow ???  
but I ain't that aggressive instead I act suggestive  
bat my eyelashes make smooth & subtle passes  
timed perfectly with the classic under my dark glasses  
[he must have put a spell on my mind]\*sung  
overlapping\*  
amountin' all the words to do magic  
with all due respect he approached it  
and offered the roach clip as I respectfully declined to  
smoke it  
[Nah nah I don't I don't do that] \*spoken\*  
Broken the ice his demeanor was nice  
he tried to freak it to my mental  
[Ay yo it wasn't accidental]  
Yo his talk was slick my resume is kinda thick  
[So let's blow this scene girl and check this flick]  
and show me why ?Paid alive? ain't ya average click  
Recognize Paid Alive about to lock this shit

Chorus

Yeah yeah I know you got a car

but we should keep it in the lot  
I got a urge to ride the train  
let's do some walkin' in the rain

it sounds insane but meditative for the brain  
plus I'd like to get to see if you as crazy as you claim.

[Paid Alive]

as I proceed to lead ya direction

[Lauryn] \*rapping\*

Well these procedures that you agreed to  
I'm gonna need to know a little more  
about ya self & family [License]  
well who's paid and who's live?  
Where you live what you drive?  
Ever did a homicide?  
[I hope not] let our molecules collide  
In time we'll tell if you can indoor with L  
if you tryin to knock it down then I'm not that type of girl  
my mind's a pearl and I done been around the world  
but if you righteous I might just let you spend the night  
and...
