Watch the master plan, the pastures span through the streets

Flipped the beat, move the sheep, like the shepherd

It's a new day, my crew stay forever strivin'

Give thanks 'cause we alive and been through the gutter

Now we see the horizon

It's clear to me now

Used to be confused, took a lot of years to see how

Now we movin' planets, take the average mind and expand it

You take for granted like we're always gonna be disadvantaged

But soon come, it soon come, ya soon done

Ya start run, you stumble, we catch one

In the rhythm, Santana lick the guits with precision

Not accidental, intentional, conscious decision

To Zion, we're marchin' through with African Mayans

Conquerin' Babylon with the heart of a lion

Behold and watch yesterday come back around

And the walls of Jericho come a tumblin' down

Tell me, how long has it been

Is everything, everything alright my friend

You see, time is passin'

People askin' how come none of this ain't lastin'

Money will make people deal like they don't even have to feel

But no, it ain't real, it ain't real

Oh, do you like the way that's going down?

Do you like the way that it's going down?

Ooh, do you like the way

How long, how long will we wait, to sit down and communicate?

See, everything is relative, if you want to get then give

Can't we all just build and live, can't we, can't we?

Oh, do you like the way that it's going down baby?
Going down baby, going down, wait a minute
