Take it down now  
I loved hard one but the love wasnt in return  
I found out the man i die for he wasnt even concerned  
Time will turn you tried to burn like a perm  
But my eyes saw the deception but ma' heart couldnt  
let me learn  
For, some little mug was i  
Every time he lied he would cry and then id die  
My heart must of died a thousand deaths  
Compare my self to Tony Braxton thought id never  
catch my breathe  
Nothing left you stole the heart beating from my chest  
I tried to call the cops that type of thing they cant arrest  
Pay supressed will lead to cardiac arrest  
I must deserve it cus' he convinced me i was not  
blessed  
But my people would protest told the line of buisness  
cus' ma s\*\*t was complex

Mornings just a sex i was blessed but couldnt feel it like  
when i was caressed  
I spent nights touching my breast overwhelmed by  
gods zest  
I was god bleesed contimplating destistating mess  
And no man has ever worked in paradise, no man has  
ever worked in paradise, And no man has ever worked  
in paradise

Where were you when i needed you, when i needed  
you, when i needed you  
Where were you when i needed you, when i needed  
you, when i needed you  
oh do do do do do do do do do do do do do do do do
