I got my pay the other day
I noticed a massive chunk has gone away
I wonder where my money has gone
It seems crooks in suits spend our money wrong

[Chorus:]

Funding a war - we are funding a war
We are funding a war - with nothing to gain
We are funding a war - we are funding a war
Funding a war - with nothing for us to gain!
Wouldn't mind if it went to education
Instead it goes to wars and isolation
It could be used to help solve a problem
But instead it creates more
And leaves it for us to solve them.
