smash your symbols to the wall  
smash your symbols to the wall  
smash your symbols to the wall  
1 2 1 2 3 go!

[Chorus:]

prophets and your preachers  
smash your symbols to the wall  
and all you learned at school  
smash your symbols to the wall  
the lies that they feed your fucking mind  
smash your symbols to the wall  
don't be fucking blind  
smash your symbols to the wall

when your born you are a number  
you are just like cattle  
and for your rights and freedom  
its a never ending battle  
those who are in power  
will make sure you never are  
they'll bug your phone, track you down  
make sure you don't get far.

they'll teach you to bow to priests  
for they are men of god  
and from day one what they ask of you  
you just sit there and nod  
they'll hit you up for money  
the first chance that they get  
so buy your seat in heaven  
or in hell you will be spent.
