"Being Different"

When I was young and self assured
I wanna get the level I adored
A faith in god that people share
They might believe but I donç£~ even care

I shaped my ways right out of here
They try to scare me but they wonç£~ get near
But how it works - that I wonç£~ forget -
What you deserve ain't what you get

Where the hand goes down tonight
Feel the way you will decide
Where the hand goes down tonight
They will try to drown ?
And now weç£-e here what have we found
Like all the others as they hit the ground
Weç£-e different now but in the end
Weç£-e all engaged to reincarnate in sand
