Since you been away
I felt all alone and lost without your love
My feelings for you will never be changed
Cause it's you that I'm thinking of
Oh how can I hide the pain I feel deep inside
Don't you know you're always on my mind
The way you made me feel made our love seem so real
Don't you know you were one of a kind
Oh girl, why did you have to leave me
Won't you give me one more try
My baby love, the pain just won't relieve me
Why did you have to make me cry

Chorus:

Just give me one more chance girl
Just give me one more chance for love
Repeat(1x)
Just give me one more chance for love

The night we both fell in love
I prayed the skies up above
That you will be the only one for me
Our love can only be true
I'm dependant on you
That our love will be a fantasy
The night you left me behind
I started losing my mind
Don't you know how I loved you so
What do I have to do baby
To get back with you
Tell me now, cause I need to know
Oh girl, why did you have to leave me
Won't you give me one more try
My baby love, the pain just won't relieve me
Why did you have to make me cry

Chorus
