What are those freaks to replace our bet - they quoted
a lie

Where have they gone now ? - control yourself and
calm it down

"I am called to be your leader"

Our arms aligned and then we reload

We go now to the border

Stay here - no surrender

For we donç£~ wanna killç£,m

İç£Ž not aware, but I care - do remind me

But when we came forth - their hidden place - a ruin
without hope

And one for all they decide to hate and not to lose

"who is called to be your leader ?"

"we killed him first -now we won't give up!"
