You and I run for things that I'll never wear
Borders align to break, because we dare
Canç£~ you read the signs that they gave to me
Feel all the love and feel all the hate there instead

I want you here
I want your fear
I canç£~ be closer than today

(I canç£~ be closer than i know youç£-e at hand)

So you dress whatç£— stolen to be unfair
All the victims and all thatç£— secretly there
Carpet crawling, down to all under me
Pissed and blinded thatç£— what you gonna be
