Oh fuck you£–e still alive - I'm glad to see you again  
Oh I'm really scared, I swear that I failed to know  
I hear you say that I never seemed to love you  
And when I'm asleep I don't want to hear you ?

And I don't know that I saw you drown  
And I don't know what I saw  
And I don't know.... you drowned

Oh you never saw, I bleed to keep you unknown  
No you would never know, what I felt: left all alone  
And I lied to please the crowd that I belong to as well  
And I lied ?.

Crawl out and share the love  
I can't explain the anger and that once I used to know  
That I was the one who tried to escape  
Tried to hold you back in my head

And I didn't want to hurt you  
And I didn't want to hear you  
And I didn't want to leave you  
And couldn't even reach you  
And I lied - so I lied - never lied
