All right me old asswipe With your blinded vision  
Starring out of your Tunnelled  
blinkered world, Narrow Minded Blinkered  
Fool, It's no surprise to me That you can barely see  
More than three or four  
feet Right in front of thee, Bigoted Pre-  
Concieved Ideas, Yes you are a complete asswipe A  
totally wild and dangerous man  
Mixing and testing with ideology Dealing  
your drugs and singing in bands, Down on your luck,  
scraping for cash Feeding  
the masses with polluted stash Injecting the

serum from you to the half-wit The toxic milkshake will  
bulge out your wallet,  
Ac- Cept Your Crime, OK me old asswipe The  
system has decided It won't here of this They'll put a  
stop to it, It's not good  
enough for you To serve out national justice  
You were right and they were wrong So you'll become  
an anarchist, Listen, sing  
in your band A better life for a growing man  
Don't preach your blinkered tribe 'Cos you are a grade  
A asswipe, You came We  
saw We laughed In your face
