Who cares, if it's fiction of fact?
The editorial management, they know where it's at,
Power to crush, power to praise,
They are lost in a dimwitted daze,
Originality really sucks, don't mean nothing in their
books,
Cliched bands to a written formula,

Guaranteed press writing orders,
Who cares, if it's fiction of fact?
The editorial management, they know where it's at,
Electricfy, crucify,
They create, masturbate,
Thrashing mad, really bad,
Crucify, destroy and die
