Darker inside, than one would believe, tossed every
card, every memory. till i saw her face, now i've been
dreaming for days, the dark our love could replace,
depression soon thrown away. one and only chance, to
live life having our bliss. she's got me in a trance, loves
tied me with a princess. don't want to be alone with
your every memory. i know now, you and i weren't
meant to be. got one and only chance, to be with the
girl of my dreams. such a twisted little bitch, agonized
day and night over all your shit, for all this pain i
could've missed, glad now it's through and dissonant.
you say you want to be with someone to make life
complete. well here's your ticket to leave, i found
someone better to please, fuck you i'll leave.
