White on black.  
Red on blue.  
It's all here except the chance to grow.  
And it's so dark beyond your cellar doors,  
So open up and we'll give it a go.  
Take me away.

We'll never be the same.  
We have a lot to change.  
We have to face this pain.  
And I'll never ever let you go.

White on black.  
Just come back.  
Don't hide your faith behind locked cellar doors.  
And the room is so dark,  
Don't be scared.  
Open up and we'll give it a go.  
Take me away.

We'll never be the same. (but let's do it)  
We have a lot to change. (we can do it)  
We have to face this pain. (but let's do it)  
And I'll never ever let you go.

We'll never be the same. (but let's do it)  
We have a lot to change. (we can do it)  
We have to face the pain. (but let's do it)  
And I'll never ever let you go.  
We'll never be the same. (but let's do it)  
We have a lot to change. (we can do it)  
We have to face the pain. (but let's do it)  
And I'll never ever let you go.
