Staring at these walls, confined for all my life...  
Wondering if I'll ever again see the sunlight. With all  
my suffering, no one will understand. Alone, I sit, no  
one to call or take my dead end. 'Round and 'round I  
wander, this enduring consequence... Surrounded in  
my tomb by signs that don't make sense. So I lie...  
Waiting for the day I die!

Drive a nail, in my coffin! These runes no longer exist!  
A thousand nights, with endless torture, clenched  
within my fist!  
Liberation!  
A perfect sentence comes to mind!  
Preparation!  
There's no one there, each of us die!

You took away my life, stripped all the pride that I had.  
This action's not in place, as I seek eternal vengeance!  
You took away my life, stripped all the pride that I had.  
This action's not in place, as I seek eternal vengeance!

Outside the walls, I detected a means for my escape!  
No better build, I've rejected! Applaud in your destined  
place!  
I make a stand, take what I can, their lives are  
meaningless to me!

Assured suicide, I will not hide! My place will end their  
last crusade!

You took away my life, stripped all the pride that I had.  
This action's not in place, as I seek eternal vengeance!  
You took away my life, stripped all the pride that I had.  
This action's not in place, as I seek eternal vengeance!

Stare into my eyes and witness my misery!  
A man possessed with eternal vengeance,  
A burning fire,  
You left inside of me!

You took away my life, stripped all the pride that I had.  
This action's not in place, as I seek eternal vengeance!

You took away my life, stripped all the pride that I had.  
This action's not in place, as I seek eternal vengeance!
