Dare to believe the lives
Of your friends were deceived
The lives of your friends can't be saved
All of you people enslaved

It feels like I'm being pulled under
I'm falling down descent of man
Give your last farewell
Edging closer and closer to death
Let's embrace this hell

Stand tall and fight until the sun begins to rise
(Begins to rise)
Give all your lives for the ultimate sacrifice
(Sacrifice)

Do what you're told
Your lives already been sold
You make some money someday
Dragging your body away

I'm already pulled under
I'm falling down descent of man
Give your last farewell
Edging closer and closer to death
Let's embrace this hell

Stand tall and fight until the sun begins to rise
(Begins to rise)
Give all your lives for the ultimate sacrifice
(Sacrifice)

Stand tall and fight until the sun begins to rise
(Begins to rise)
Give all your lives for the ultimate sacrifice
(Sacrifice)
The ultimate sacrifice
